These host families in Kagoshima City are looking forward to seeing you.

■ **Details**

This home visit program is a free intercultural exchange through the experience of Japanese life and culture at a home of host family.

■ **Limited to** 10people

■ **Participants voice**

I participated in the home visit program in 2014. My host family for the day was a family of 3 people, and a family friend. I was kindly invited into their home where we ate, exchanged jokes and stories, and watched a movie. By participating in the home visit program, I got the rare chance to spend time with a young family, make friends, and learn more about Kagoshima City.

There's no doubt that this will become a great memory for all participants!
